Sage 50 Complete Accounting 2013 Torrent

On Windows XP®, select **Start/Run**. On the command line, type D: Autorun (substitute the appropriate drive letter for your CD/DVD drive), and then click **OK**.

If you downloaded Sage Peachtree, double-click SagePeachtree2012.exe. SagePeachtree2012.exe is the file that was downloaded. Use the same file that you downloaded to install on each workstation.

> Note: You can get the downloaded file onto each workstation several different ways. You can download the file to each computer. You can burn the downloaded file onto a CD or put it on a flash drive to take the file to each computer. You can put the downloaded file out on the network where it can be accessed from each computer, then copy the downloaded file to each computer.

2. Select to install Peachtree Accounting.

3. Read the information and instructions on the window, and then select **Next**.

4. Read the License Agreement and select the checkbox if you agree to the terms. Select **Next**.

5. You may be prompted to set your firewall so that Sage Peachtree can be installed. If so, follow the directions on the screen. Click **Next**.

6. Enter the serial number found on your install disc case or in an email that was sent to you and click **Next**.

7. Next, the Single Computer or Network window appears. Select **No**. This will ensure Sage Peachtree knows you are installing in a network environment. Click **Next.**

8. Select **No** to the question "Will you store Peachtree company data on this computer?" Click **Next**.

9. Select **Yes** on the confirmation window, since you installed Sage Peachtree on the computer where the Sage Peachtree company data will be stored in the earlier steps.

Have you already installed Peachtree Accounting 2012 on the server (the computer where the Peachtree company data will be kept)?

  ⊙ Yes
  ○ No

10. The Choose Peachtree Program Files Location window appears, asking you to specify where you want to put the Sage Peachtree program files. Enter the appropriate path here or leave it set to the default.

Choose Peachtree Program Files Location

Verify the directory for the Peachtree program files:

| C:\Program Files\sage\Peachtree | Browse |

The location for your company data files will be selected on the next screen.

Note: The path MUST point to a local drive.

Click **Next** to continue.
